

Policy: Environmentally sustainable transport options

At the Policy and Issues subcommittee meeting of 16/7/98 it was Moved

“that, due to the major environmental impact that transport modes and infrastructure can have on the Merri Creek and its adjacent lands, MCMC will promote environmentally sensitive transport solutions within the Merri catchment, particularly with regard to the proposed Hume Freeway corridor.

Further, that MCMC reaffirms its primary purpose which is: ‘...to ensure the preservation, restoration, environmental protection and ecologically sensitive development and maintenance of the Merri Creek and adjoining lands, with the long term of securing a major park (“the Merri Creek Parkland”) with significant recreational and conservation values.’ ”

M. Sargent / P. Prentice - **Carried.**

This became a recommendation and was adopted as policy by the Committee of Management on 20/8/98
